

KWIC
Town of Barrington
26 Sept. 2016

Present: Webster, Illig, Church, Warren, Butchko
Also – see attached list

Approval of 26 Sept minutes	Motion - Webster Second – Illig All in Favor
-----------------------------	--

Bookkeeper's Sept Report	Motion – Church Second – Illig All in favor
--------------------------	---

Manager's Report:

Colby – units worked year to date slightly up over 2015. Many more real property transfers. Recent on-site waste water treatment training (OTN) had large attendance, unfortunately will not occur again for some time.

Total watershed inspections due do not include Coldbrook or Sugar Creek units (approx. 43+ total)

Looking Ahead:

NYS DOS LULA grant coming to closure. Purchase Development Rights for watershed properties will be again presented in April training. Mr. Laffin presented the threat of the Star Wart, an invasive species plant now affecting parts of Keuka Lake. Chairman Butchko suggested that KWIC might want to look at a program at Lamoka-Waneta Lakes that takes on these invasive plants. He noted that the organization is meeting this Saturday and that he would obtain a copy of the organizations structure, by laws, etc. and share this with the KWIC board for consideration.

In addition due to the severe drought 'conditions in 2016 KWIC needs to consider who might be in a position say when water restrictions may come in play.

Jim Smith of Yates County Legislation is attempting to re-establish the Seneca Lake SLAP 5 program, similar to Keuka's KWIC program. Chairman Butchko offered assistance and help to Mr. Smith in his endeavors.

At 8:00 motion by Church to end meeting and go into executive session. Seconded by Warren. All in Favor.

At 8:33 motion by Church to end executive session and return to meeting, second Warren, all in favor.

No actions were to be taken. A data sheet attached was distributed.

8:35 Illig motion to close meeting. Second by Webster. All in favor.

Next meeting 28 November – Town of Wayne

LULA training 27 April 2017 – Penn Yan
